RECREATIONAL ACTIVITIES AND EQUIPMENT USE

Please use extreme caution during dry conditions and follow all laws regarding open fires, equipment use, and recreational activities.

When Having a BBQ or Using a Fireplace:

- Ensure there is 10 feet of clearance around your BBQ.
- Dispose of ash in a metal container with a lid away from any flammable materials.
- Ashes may take several days to cool completely in the can. Do not discard them until they are cool enough to touch.

When Using Equipment:

- Ensure your equipment is in good working order and that you are using it correctly. Mow before 10 am, and never on windy days.
- All gas-powered equipment (ATV's, generators, motocross bikes, weed eaters, lawn mowers, etc.) require a spark arrestor. Check your equipment prior to use to ensure your spark arrestor is installed and is clean and serviceable.

When Target Shooting:

- Shoot in areas free of vegetation.
- Use safe targets, such as paper or clay pigeons, as steel targets or rocks may throw sparks into nearby vegetation.
- Have a shovel and fire extinguisher on hand in case a fire does spark.
